

Craft Training & Assessments in SPANISH!

Brought to you by the National Center for Construction Education and Research (NCCER) and Pearson.

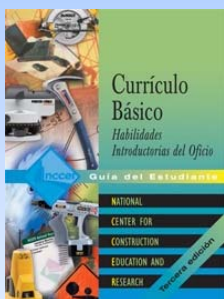

ONE-STOP SHOPPING!

CURRICULUM - NCCER develops and publishes the Contren® Learning Series in partnership with leading textbook publisher Pearson. Built upon industry standards, this competency-based curriculum is taught nationwide by contractors, associations, and secondary and post-secondary schools.

ASSESSMENTS - NCCER offers a complete series of entry- and journey-level assessments. These assessments evaluate the knowledge and skill level of an individual in a specific craft area.

THE NCCER DIFFERENCE!

- An entire program created by construction industry experts and educators
- Standardized, competency-based curricula with measurable objectives
- Portable, industry recognized credentials maintained within the NCCER's National Registry that can be validated with contractors nationwide
- A modular design for flexible and easy delivery
- Exceptionally produced, illustrated Trainee Guides and Instructor support tools
