

# Career Mobility Program of Study

Career Mobility option is the program designed for LVN-RN transition--those individuals who are licensed vocational or practical nurses (LVN/LPN) and wish to complete their Associate of Applied Science degree requirements. This program option builds on previously-held student knowledge and integrates new course content that facilitates transition from the LVN/LPN to RN role. The second and third semesters are integrated with students in the "generic program". Upon completing the degree plan and obtaining a satisfactory score on the comprehensive standardized **Exit Exam**, the graduate is eligible to take the NCLEX-RN examination.

An applicant is considered qualified for Career Mobility option if the following conditions are met:

- meets or exceeds **admissions requirements** for all applicants.
- is a licensed LVN/LPN (must submit proof of licensure.)
- submits proof of one year full time LVN/LPN work experience within the last three years OR is a recent graduate of an LVN/LPN school (within one year at the time of application) OR has completed the SAC DNE LVN Refresher/Re-Entry Program within one year of admission.

## ASSOCIATE OF APPLIED SCIENCE MAJOR: NURSING

### General Core Academic Requirements: 17 Credit Hours

ENGL 1301	Freshman Composition I	3 Credit Hrs
