

The Mexican-American Experience

To help San Antonio College meet its mission to promote cross-cultural understanding and appreciation through instructional and social activities that contribute to cultural awareness and interaction, several departments are offering designated course sections which are infused with Mexican American topics. The intent is to encourage inclusion and to enrich specific sections of courses with the Mexican American Experience to enhance personal and professional relationships in a city with a large Hispanic population.

Beginning Fall 2006, students may earn a certificate upon completion of 12 credit hours of MAE courses. To become eligible, three hours must be taken from one of the three general courses: ENGL 1371, HIST 2301, and IDST 2371. The remaining nine hours may be taken from any course offering MAE.

For more information, contact the Sociology Department at 210-486-1324.
