"I have three children and my only income is TANF and food stamps. I've tried to find work but nobody will hire me because I didn't have my GED. Receiving this scholarship was the only way I could have taken my test. Now that I have passed, I have already enrolled at SAC to fulfill my dream of getting a college education. I no longer want to be on government assistance. I want to break the cycle my parents started and thanks to your generosity, I will." –Desiree (age 33)
