**Access by Minors to the
St. Philip's College Learning Resource Center
World Wide Web / Word-Processing Computers**

With your permission the St. Philip's Learning Resource Center will provide Internet access to your child. The Library does not monitor or control information accessible through the Internet and is not responsible for its content. The Internet offers access to many valuable sources of information. However, some information found on the Internet may be inaccurate, incomplete, dated, or offensive to some individuals. Library patrons use it at their own risk.

Parents or legal guardians must assume responsibility for deciding what library resources are appropriate for their own children. Parents or legal guardians should guide their children in the use of the Internet and inform them about materials they should not use.

The public use of terminals in the library is governed by the same rules of courtesy and decorum that generally apply in the library.

I have discussed use of the Internet with my child and agree to allow my child reasonable use of the Internet.
